

Data Signs Portable Traffic Signals PTL-300

The PTL-300 NZTA compliant traffic lights are trailer mounted and be dual towed. With solar power they are an excellent solution for long term worksites and remote areas.

They maintain constant RF communication with each other and have an operating range of up to 1.6km line-of-sight which can be extended up to 3km with additional antennas.

Extremely robust, can be setup by one person and have extendable outriggers for stability in any condition. Height adjustable-electric mast control for any situation.

Can control two-way, three-way and four-way intersections which can be daisy-chained.

Highly configurable and easy to use remote control.

Description

- Rapid and safe single person deployment
- Easy lift electric raise or lower
- High corrosion resistance
- High solar capacity
- Low-maintenance service
- Secure extendable outriggers
- Up to 4-unit synchronisation
- Can be towed 2x up with a standard vehicle
- High gain antennae with channel hopping to eliminate cross-talk
