

## Temporary Speed Signs

Temporary Speed Signs are an extremely useful tool to improve road safety on road construction work sites.

They contribute towards Positive traffic management on the site by:

- Making vehicle drivers aware of their speeds on the site
- Providing a warning to vehicle drivers if their speeds are above the speed limit of the worksite

In addition, Speed Signs are capable of providing us with data to enable the efficient flow of traffic. This can be done by analyzing the data provided by Speed Signs.

|                           |  |    |   |
|---------------------------|---|--|--|
| Model                     | Basic   | Deluxe   | Premium  |
| LED                       | YES   | Yes<br><br>With a flick of a switch, the Deluxe speed signs can also be used as just data collection units. The data is collected in "Stealth Mode", i.e. the speed sign will collect data without showing the speed to the vehicle's drivers. | Yes<br><br>With a flick of a switch, the Deluxe speed signs can also be used as just data collection units.
